

IGeS Bulletin N. 11

Summary

Communication Page 1

I section: "Reviewed Papers"

GRASS interfacing with DBMSs
(M.A. Brovelli, M. Negretti, C. Saldarini) Page 3

Urugoide 2000 Project a Gravimetric Geoid for Uruguay
(W.H. Subiza Pina, C. Gemael, N.Cogo de Sa) Page 11

Geoid Computations in Estonia
H. Jurgenson Page 21

A local geoid in Droning Maud Land - The NARE 96/97 Geoid
(T. Eiken, O.C.D. Omang, O.Ovstedal) Page 30

Glacier terrain effects in geoid determination - the Iceland example
(O.C.D. Omang, R. Forsberg, H. Bjornsson) Page 49

Quasi-geoid estimations in South America
(R. Barzaghi, et all) Page 72

Astrogeodetic Geoid Determination Using Seismic Moho Information
(H.A. Abd-Elmotaal, N. Kuhtreiber) Page 80

Can we filter non-stationary noise from geodetic data with fast
spectral (FFT) techniques?
(C. Kotsakis) Page 93

Problems and new concepts in local geoid solutions
(A.Albertella, G. Venuti) Page 115

The Height Datum Problem: the Italian Case
(P. Baldi, B. Benciolini, F. Sacerdote, F. Sansò) Page 122

II Section : "Communications and News"

GFFS Meeting in Banff at GGG 2000 Symposium Page 142

The Unified Height Reference System for the Americas (SIRGAS 2000) Page 145

African Geoid Project Page 153

International School of IGeS - Cairo 2002 Page 155
